***EMBARGOED UNTIL 09.00 CET on Friday October 5th 2018***

## **UTEMIS will Participate in the LATOKEN LaunchPad and will list in its Exchange in October 2018**

LES ESCALDES, ANDORRA – UTEMIS Limited Liability Corporation has announced today that it will complement its current TGE with the LATOKEN LaunchPad and that it will trade at the LATOKEN Exchange in the last week of October 2018.

LATOKEN is a rapidly growing crypto exchange and tokenization platform focusing on providing liquidity for new tokens and asset classes. It has over 35 million USD in daily turnover, over 80k registered traders and more than 180 crypto pairs trading. Only a few selected tokens can participate in their pre-sale and can conduct a portion of their crowd sale using the LATOKEN LaunchPad.

The LATOKEN LaunchPad Participants will have an exclusive 20% discount on the UTEMIS Token TGE. UTEMIS TGE listing price is 0.01 USD and in the LaunchPad the price is 0.008 USD.

When the TGE concludes the UTS Token will proceed to float on the LATOKEN Exchange. The following pairs: UTS/BTC, UTS/USDT and UTS/LA will be available for trading before the end of October 2018.

### **ABOUT UTEMIS LIMITED LIABILITY CORPORATION**

Founded as a private company with the Mission – and the Business Model – to replicate in Latin America the success that the Chinese e-commerce giants have had in China; the UTEMIS Limited Liability Corporation is creating the UTEMIS Token (UTS) to do something that is nearly impossible to do without a Cryptocurrency; unify the entire Latin American continent into a single economic space – this a new application for a Cryptocurrency. When the Chinese

e-commerce giants were created they did not have to deal with multiple currencies, or multiple inflations or different economic policies. By creating the UTS Token, UTEMIS Limited Liability Corporation is creating a unique Business to Business economic space so that all companies in Latin America operate in the same level playing field. Using the UTEMIS Platform companies can access business opportunities that otherwise would have never reached – all protected and with the maximum security. They are financially protected with an escrow account and have their reputation decentralized and publicly available on the blockchain.
